*FOLDABLE
AND COMPACT*

CHAMPION SL

Meet the all new Kuschall Champion SL, an exciting and stylish new Kuschall design that retains all the travel-conscious characteristics of the original Champion series but welcomes a lighter and more agile performance. Engineered with the increased stiffness and rigidity of 'The KSL', the new Champion SL gives optimum driver control and high levels of responsiveness for an even greater drive.

*SUPER LIGHT
AND RIGID*

The Champion SL promises to give the most discerning of active wheelchair users an impeccable drive.

We poured our passion and expertise into every detail of the Champion SL.

Our goal was to design a compact, foldable chair that gives an exceptional drive. Not only did we commit to the highest standards of functionality and durability in our design, but we reached for a chair that captures the spirit and aesthetic of Kuschall.

MADE TO TRAVEL ***BUILT TO PERFORM***

Designed for an active lifestyle, the Champion SL helps take you on a journey to explore new adventures, pursue passions and help unlimit your world.

TRANSPORTS WITH EASE

We would never change what you love about the Kuschall Champion. A travel-conscious design, the Champion SL is a winner when it comes to convenience. Simply fold the frame for easy transportation and compact storage. The new Champion SL takes you places you want to go – with confidence.

EXCEPTIONAL DRIVE PERFORMANCE

The Champion SL is a highly versatile active chair built especially to perform. Super light and robust, we have focused on a design precisely engineered for energy efficiency. With increased resistance and responsiveness, the Champion SL pays attention to efficient propulsion and optimal biomechanics.

TAKE A CLOSER LOOK

SUPER LIGHT

Now 5.9kg transport weight for easier handling.

RESPONSIVE

Gives easy and quick changes in direction, speed and navigation of tight corners.

TRANSPORTS WITH EASE

Unique folding mechanism makes transporting and storage simple.

ERGONOMIC GRIP

For easier repositioning and transfers.

HYDROFORMED TECHNOLOGY

Strengthens the frame for increased rigidity and improved energy efficiency when propelling.
