Mechanization

VENDLET Patient Turning Systems

VENDLET for Bariatric Care

"The Vendlet enabled Soham to cater for the needs of a bariatric resident – something we could never have considered previously, for many reasons."

- David Lidford, The Soham Lodge Care Centre
- Without VENDLET, it would have taken 4-5 carers to turn the gentleman
- Lack of dignity
- Risk of injury
- Financed over 5 years, cost of VENDLET per day worked out at less than one hour's pay for a care support worker

Transforming a Care Task with the Vendlet V5S

REFRESHMENT BREAK

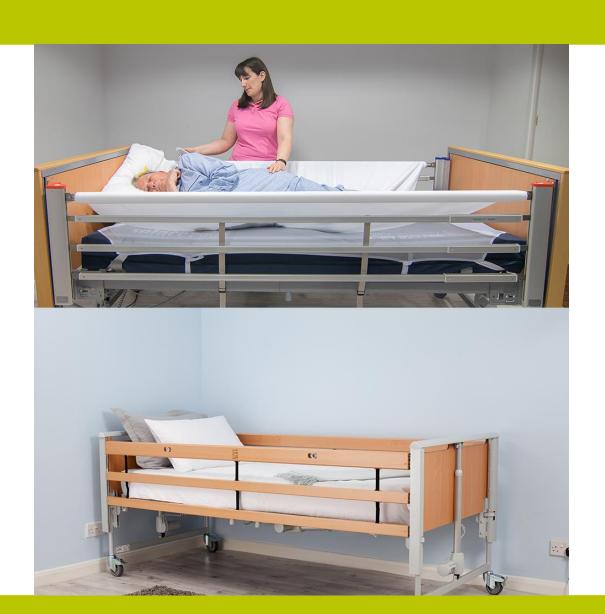

Reconvene 11.15

The VENDLET Basic

A simpler solution offering greater value for money and deskilling the handling process to meet the needs of the UK market.

The VENDLET Basic

The siderail that mechanically handles and positions people!

The VENDLET Basic

So what's different?

- SWL 150kgs/23.6 stone
- Extremely simple to operate but perhaps more importantly, it's perceived as simple!
- Extremely straightforward to install (designed for stores technicians to install)
- Only weighs 29kgs/4.5 stone
- Autoclavable
- QuickTag System

Cost Savings Calculator

By integrating the VENDLET Potent Turning System into client care packages, in most cases, double-handed care packages can be reduced by fulf. And with the number of older package has been packed by some resource more effectively.
